Skylink Services Ltd is a well-established company, providing specialised services for executive aircraft at Larnaca and Pafos International Airports. Since beginning operations in 1998, the company has expanded and gained a high reputation, with experienced staff qualified to support all our customers' executive and professional requirements.

Skylink Services Ltd is proud to be the sole owner and operator of the only FBO facility in Cyprus, based at Larnaca International Airport. Officially opening its doors in June 2010, this 1600sqm facility is unique in Cyprus. The company continues to offer 24hr professional VIP ground handling services, and is dedicated to providing a stress-free experience for both passengers and crew.

Currently representing over 400 international companies worldwide that either own or operate executive aircraft, the company caters for aircraft ranging from very light jets to large aircraft, including Boeing 747 and Airbus 340. Skylink Services Ltd is the preferred choice of most VIPs, celebrities and business persons traveling to or from Cyprus.

Skylink Services Ltd also manages and operates the new Heads-of-State lounge facility at Larnaca International Airport. The Government of the Republic of Cyprus granted Skylink Services Ltd sole responsibility for the building, management and operation of this new facility, due to the company's high standards and quality services. This lounge is used by all Heads-of-State, as well as other dignitaries visiting the Republic.

On 6th June 2010, His Holiness Pope Benedict XVI completed a historic official visit to Cyprus, departing through the Heads-of-State lounge facility at Larnaca International Airport.

In the second half of 2012, the Republic of Cyprus held the rotating EU Presidency, during which the executive FBO and Heads-of-State lounge were efficiently operated by Skylink Services Ltd, ensuring that the increased traffic due to all visiting delegates and Heads-of-State was handled smoothly and successfully.

Larnaca

The facilities available at Skylink Services Executive Terminal in Larnaca, throughout the year and on a 24hr basis, include a spacious lounge which can accommodate up to 60 passengers at any given time, a luxurious and relaxing environment complete with state of the art media and

visual equipment, and Wi-Fi internet access. There is also selection of complimentary hot and cold beverages and snacks. A separate crew rest area and briefing facility is offered, as well as a private area available for meetings.

With customs, immigration and security screening located within the FBO, passengers and crew are escorted through the terminal with maximum convenience and efficiency.

Pafos

At present, Skylink Services Ltd operates at Pafos International Airport, providing all our services with the exception of an FBO.

Vehicle Fleet

Skylink Services Ltd owns a fleet of Executive vehicles. These include Mercedes 7-seater Viano mini-vans for ramp and crew transfer, as well as Mercedes S-class and BMW 7-series for executive limousine transport.
