### Message from the CEO:

Over the past fifteen years, Euro Jet has gone through a period of significant growth. As we have expanded our staff and increased the number of our locations, we have not forgotten our ultimate goal of ensuring that every customer turns into a long-term partner.

More than 30 nationalities work together every day to deliver seamless customer service. We see value in our diversity as it helps us understand various cultural situations, be flexible, and find solutions for a wide spectrum of challenges.

We are proud to have built a very special ground support network spanning Central/Eastern Europe and Central Asia. Our teams are located in unique and often challenging countries, with the aim to provide the same smooth worry-free experience for each of our customers.

Euro Jet's hangar facility in Prague as well as our 17 VIP complimentary crew lounges and offices throughout our core region are an important part of our product. Though we see our biggest added value in our people. Euro Jet's team of highly experienced local English-speaking aviation professionals know their airports inside out and are always ready to deliver the highest quality ground support service.

Thank you for your continued trust and support of Euro Jet.

## Planning and Assistance

Tailor-made for the unavoidable events of a sick passenger, bad weather, or a maintenance issue, diversion planning and assistance is a unique Euro Jet product. Our team tracks and maintains data on hundreds of airports around the world and can consult on the best airports to land at depending on the flight path. In the event of a diversion, we coordinate all ground support services for you.
